SUMMARY

Aspiring Python + AI Engineer with strong foundations in software development, automation, and AI-assisted coding. Passionate about leveraging AI copilots, prompt engineering, and Python frameworks to build intelligent, scalable solutions. Seeking to contribute to sports technology innovation at Stats Perform.

TECHNICAL SKILLS

Python	Machine Learning Basics	Jupyter Notebook
Basic Java	Prompt Engineering,	Google Colab
SQL	AI Copilots	GitHub

PROFESSIONAL EXPERIENCE

AI-Assisted Python Developer - Internship

- Developed Python programs using AI copilots (ChatGPT, GitHub Copilot) as daily development tools.
- Converted problem statements and specifications into structured, testable Python solutions.
- Designed prompts for code generation, refactoring, debugging, and test case creation.
- Focused on correctness, edge-case handling, and automation.
- Used GitHub for version control and collaborative workflows.

EDUCATION

Bachelor of Computer Science Engineering

Sri Krinshna College of Technology
2023 -2027
CGPA : 7.3

Higher Academy

Mahendra Matric. Hr. Sec. School
2021-2023
Percentage : 91%

PROJECTS

Sports Data Analysis System

- Analyzed player performance datasets.
- Built visual dashboards for match insights.
- Generated automated performance reports.
- Evaluate player performance and generate visual insights using Pandas and Matplotlib.

ADDITIONAL SKILLS

- Leadership , lead a group project in AI chatbot with Python
- Problem-Solving,Analytical Thinking
- Communication Language : Tamil, English

CERTIFICATE

- Google Cloud AI
- AI/ML coursera
